

# Maximise your Business in Uncertain Times with Strategies that Work

## Cleaning and Waste Management & Recycling industries

Identify opportunities and build business strategies by leveraging on your existing resources!

### ABOUT THE SEMINAR

The 'Competitive Strategies to Sustain Business Model in Uncertain Times' CEO Breakfast Talk is jointly organised by SIMTech, NEA and WSG. Companies will learn about a holistic approach to act systematically and quickly in response to opportunities and barriers through a proven methodology adopted by more than 160 companies:

- Strengthen "building blocks" of your business or develop new business model
- Develop more and better problem solvers in the organization
- Improve people and enhance ownership to improve the process
- Enable everyone to improve work for every objective everyday

You can also achieve significant growth and productivity for your business – come join us on **Thursday, 12 January** and find out how!
